NB Semifinal round examination materials of the candidates from the above regions have been lost by Poste Italiane and they haven't been able to locate it up to date. For this reason, the candidates have been separated from the rest of the candidates from Italy and the preliminary round results (percentage of achievement across the group) were used for the purpose of selecting the finalists and qualifiers. Where there are two or more candidates with the same number of points, the youngest candidate was admitted to the qualifiers.
